

Serving people traveling through storms.

BEHIND EVERY DOOR IS A STORY

If you have a story, we would like to hear it. We have helped many individuals who have found themselves in an economic crunch or with the need to sell a home.

Behind my front door was this story: I experienced stage 4 cancer, then depression, then divorce. If it were not for so many people helping me plan out the steps and praying for me, I would have been completely lost.

BEHIND EVERY DOOR IS STORY: What's yours?

We can solve problems and help people move into the next better chapter of their lives by purchasing their property, freeing up their equity, helping them pay off debt, and moving into a new residence. In some instances, we rehab their property so that it sells for a higher price, thereby providing additional funds.

- We help people pay off credit cards (or other debt)
- Assist in locating a next residence
- Often assist in helping on moving day
